

I am in objection to LPFM having priority over FM (LPFM) I listen to K Love on FM and it serves my community by offering alternative family music to myself and my children. If KLOVE were to be displaced by an LPFM broadcaster providing other programming it would take away my access to a safe choice of music. KLOVE is a service provided to my community to provide safe and christian music as an alternative to the other broadcasters who don't seem to have the same values and beliefs that I do and do not appear to censor the information for families. It is in the public interest to keep KLOVE on the air and allow christians alike to enjoy uplifting and clean entertainment. Thank you.
